Any payment of the Terminal Dividend made by us is subject to the condition that all Premiums due have been paid in full before such payment.

Upon the approval of the partial surrender request, the future Terminal Dividend, if any, will be proportionally reduced.

Upon exercising the Terminal Dividend Lock-in Option, Terminal Dividend, if any, will be adjusted accordingly.

Terminal Dividend Lock-in Option

Dividend Philosophy and Investment Philosophy, Policy and Strategy

Dividend Philosophy

Participating insurance plans are designed to be held long term. Through the policy dividends declaration, the policyowners can share the divisible surplus (if any) of the participating insurance plans. We aim to ensure a fair sharing of profits between policyowners and shareholders, and among different groups of policyowners.

We will review and determine the amounts of dividends at least once per year, and a smoothing process is applied when the actual dividends are determined. The dividends declared may be higher or lower than those illustrated in any product information provided. The dividend review would be approved by the Chairman of the Board, one Independent Non-Executive Director and the Appointed Actuary of the Company. In case of any change in the actual dividends against the illustration or should there be a change in the projected future dividends, such change will be reflected in the policy annual statement and benefit illustration.

To determine the policy dividends, we may consider the past experience and future outlook of various factors such as:

- **Investment returns:** include both interest income and change in market value of the assets supporting the policies. The investment returns could also be subject to market risks such as change in interest rate, credit quality and default, equity price movement, as well as currency price of the backing assets against your policy currency etc.
- **Claims:** include the cost of providing death benefit and other insured benefits under the policies.
- **Surrenders:** include policy surrenders and the corresponding impact on investment.

- **Expenses:** include both direct expenses which are directly related to the policies, such as commission, underwriting, issuance and premium collection expense etc., as well as indirect expenses such as general overhead costs allocated to the policies.

Investment Philosophy, Policy and Strategy

The investment policy of the Company is formulated with the objective to achieve targeted long-term investment results, taking into account risk control and diversification, liquidity and relationship between assets / liabilities.

Our current long-term target asset mix attributed to **Chubb Future Achiever II** is as follows:

Asset Class	Target Asset Mix (%)
Bonds and other fixed income instruments	60% - 100%
Equity-like assets	0% - 40%

The bonds and other fixed income instruments predominantly include government and corporate bonds (both investment grade and non-investment grade). Equity-like assets may include both listed equity, mutual fund and private equity. Investment assets are predominantly denominated in U.S. dollars and Hong Kong dollars, and are mainly invested in the United States and Asia. Derivatives may be used to manage our investment risk exposures.

We will pool the investment from other products together for actual investment and the returns will be allocated with reference to the target asset mix. Actual investments would depend on market opportunities at the time of purchase. Therefore, the actual asset mix may differ from the target.

The investment strategy may be subject to change depending on a number of factors, including but not limited to the market conditions and economic outlook.

If there are any material changes in the investment strategy, we will inform our Owners for the changes, reasons for the changes and the impact to the Owners.

For the fulfillment ratio of participating insurance plans, please visit the webpage of the Company at <https://www.chubblife.com.hk/en/customer-service/fulfillment-ratios-of-dividend.html>. Please note that fulfillment ratio should not be taken as indicator of the future performance of this product.

Key Product Risks

The following information helps you better understand the key product risks associated with this product that you may need to pay attention before application.

- **Liquidity Risk / Early Surrender**

If you have any unexpected liquidity needs, you may apply to exercise the Terminal Dividend Lock-in Option (if applicable) for its Lock-in Amount (if any), partially surrender (if applicable) the Policy for its Partial Surrender Value (if any) or surrender the whole Policy for its Surrender Value (if any). Please note that making partial surrender (if applicable) will lead to a reduction in benefits payable under the Policy, and exercising the Terminal Dividend Lock-in Option may lead to a reduction in the declaration of Terminal Dividend. You are also reminded that if your Policy is surrendered in early years, the surrender value payable may be less than the Premiums paid by you.

- **Market Risk**

The non-guaranteed benefits of this product are based on the Company's dividend scales, which are not guaranteed and are determined by the Company from time to time and based on the Company's experiences and expectation of a series of factors which may include but not limited to investment returns, claims, policy surrenders and expenses. The actual amount of non-guaranteed benefits payable may be higher or lower than the amount illustrated in any product information provided to you.

The interest earned on the balance of the Settlement Deposit Account is calculated based on an interest rate determined by the Company. Interest rate is not guaranteed and subject to change from time to time.

- **Credit Risk**

This product is issued and underwritten by the Company. Your Policy is therefore subject to the credit risk of the Company. If the Company is unable to satisfy the financial obligation of the Policy, you may lose your insurance coverage and the Premiums paid.

- **Exchange Rate Risk**

For the Policy denominated in currencies other than local currency, you are subject to exchange rate risk. The political and economic environment can affect the currency exchange rate significantly. Exchange rate fluctuates and is determined by the Company from time to time. Any transaction in foreign currencies involves risk. You should take exchange rate risk into consideration when deciding the policy currency.

- **Inflation Risk**

Please note that the cost of living in the future is likely to be higher than it is today due to inflation. Hence, the insurance coverage planned today may not be sufficient to meet your future needs.

Termination

The Policy and its coverage will be terminated automatically on the occurrence of the earliest of the following:

- Surrender of the Policy;
- The Insured's death and the Successor Insured has not become the new Insured;
- The Maturity Date;
- our receipt of your request for cancellation; or
- the unpaid loan together with accrued interest exceeding the Cash Value

You may surrender your Policy by submitting the form prescribed by the Company. You may contact your licensed insurance intermediary or contact our Customer Service Center at +852 2894 9833 to get a copy of the form.

Key Exclusions

We will not pay the Life Insurance Proceeds if the Insured commits suicide, while sane or insane, within 2 years of the Date of Issue or the effective date of change of Insured, whichever is the later. Instead, the coverage of your Policy will be terminated and we will only pay to you the total Premium(s) paid to us without any interest, less any amount which has been paid to you by us under the Policy and any unpaid loans together with accrued interest.

Cooling-off Period

If you are not satisfied with your Policy, you have the right to cancel it by submitting a signed notice and return the Policy document (if any) to Chubb Life Insurance Hong Kong Limited, at 35/F Chubb Tower, Windsor House, 311 Gloucester Road, Causeway Bay, Hong Kong within a period of 21 calendar days immediately following either the day of delivery of the Policy or a notice informing you or your nominated representative about the availability of the Policy and the expiry date of the cooling-off period, whichever is earlier. If the last day of the 21-calendar day period is not a working day, the cooling-off period shall include the next working day. Upon such cancellation of the Policy, we will refund the total amount of Premiums you paid without any interest, less any amount paid to you by the Company under the Policy, in the original currency paid by you subject to any fluctuation of exchange rate upon cancellation, provided that the amount refunded will not exceed the total amount you paid in the original currency under the Policy.

Collection of Premium Levy by Insurance Authority

The Insurance Authority started collecting levy on insurance premiums from Owners for policies issued in Hong Kong since January 1, 2018. For details of the levy and its collection arrangement, please visit our Company website at life.chubb.com/hk or contact our Customer Service Center at +852 2894 9833. In the event that we refund your premiums, whether in full or in part, e.g. upon cancellation of your policy during the cooling-off period, the proportionate levy paid by you will also be refunded accordingly.

U.S. Foreign Account Tax Compliance Act

Under the U.S. Foreign Account Tax Compliance Act ("FATCA"), a foreign financial institution ("FFI") is required to report to the U.S. Internal Revenue Service ("IRS") certain information on U.S. persons that hold accounts with that FFI outside the U.S. and to obtain their consent to the FFI passing that information to the IRS. An FFI which does not sign or agree to comply with the requirements of an agreement with the IRS ("FFI Agreement") in respect of FATCA and/or who is not otherwise exempt from doing so (referred to as a "nonparticipating FFI") will face a 30% withholding tax ("FATCA Withholding Tax") on all "withholdable payments" (as defined under FATCA) derived from U.S. sources (initially including dividends, interest and certain derivative payments).

The U.S. and Hong Kong have signed an inter-governmental agreement ("IGA") to facilitate compliance by FFIs in Hong Kong with FATCA and which creates a framework for Hong Kong FFIs to rely on streamlined due diligence procedures to (i) identify U.S. indicia, (ii) seek consent for disclosure from its U.S. policyholders and (iii) report relevant tax information of those policyholders to the IRS.

FATCA applies to Chubb Life Insurance Company Ltd. (the "Company") and this Product. The Company is a participating FFI. The Company is committed to complying with FATCA. To do so, the Company requires you to:

- (i) provide to the Company certain information and documentation including, as applicable, your U.S. identification details (e.g. name, address, the US federal taxpayer identifying numbers, etc.); and
- (ii) consent to the Company reporting this information and documentation and your account information (such as account balances, interest and dividend income and withdrawals) to the IRS.

If you fail to comply with these obligations (being a "Non-Compliant Accountholder"), the Company is required to report "aggregate information" of account balances, payment amounts and number of non-consenting US accounts to IRS.

The Company could, in certain circumstances, be required to impose FATCA Withholding Tax on payments made to, or which it makes from, your policy. Currently the only circumstances in which the Company may be required to do so are:

- (i) if the Inland Revenue Department of Hong Kong fails to exchange information with the IRS under IGA (and the relevant tax information exchange agreement between Hong Kong and the U.S.), in which case the Company may be required to deduct and withhold FATCA Withholding Tax on withholdable payments made to your policy and remit this to the IRS; and
- (ii) if you are (or any other account holder is) a nonparticipating FFI, in which case the Company may be required to deduct and withhold FATCA Withholding Tax on withholdable payments made to your policy and remit this to the IRS.

You should seek independent professional advice on the impact FATCA may have on you or your policy.

Automatic Exchange of Financial Account Information

Automatic Exchange of Financial Account Information ("AEOI") is an arrangement that involves the transmission of financial account information from Hong Kong to an overseas tax jurisdiction with which Hong Kong has entered into an AEOI agreement. In Hong Kong, the relevant legislative framework for implementation of AEOI is laid down in the Inland Revenue Ordinance.

The Inland Revenue (Amendment) (No. 3) Ordinance 2016 requires financial institutions in Hong Kong, to identify and report information relating to financial accounts held by customers that are tax residents of reportable jurisdictions to the Hong Kong Inland Revenue Department ("IRD").

Chubb Life Insurance Company Ltd. ("Chubb") must comply with the following requirements of Inland Revenue Ordinance to facilitate the IRD automatically exchanging certain financial account information as provided for thereunder:

- (i) to identify certain accounts as "non-excluded financial accounts" ("NEFAs");
- (ii) to identify the jurisdiction(s) in which NEFA-holding individuals and certain NEFA-holding entities reside for tax purposes;
- (iii) to determine the status of certain NEFA-holding entities as "passive NFEs" and identify the jurisdiction(s) in which their "controlling persons" reside for tax purposes;
- (iv) to collect certain information on NEFAs ("Required Information"); and
- (v) to furnish certain Required Information to the IRD (collectively, the "AEOI requirements").

In order to comply with the AEOI requirement, from January 1, 2017, Chubb requires account holders (including individual, entities and controlling person) for all new accounts to complete and provide us with a self-certification for tax residence. As for pre-existing accounts, if Chubb has doubt about the tax residence of an account holder (including individual, entities and controlling person), it may require the account holder to provide a self-certification for tax residence.

As a financial institution, Chubb cannot provide you with any tax advice. If you have any doubts about your tax residence status and the impact of AEOI on your policy, you should seek independent professional advice.

It is an offence under section 80(2E) of the Inland Revenue Ordinance if any person, in making a self-certification, makes a statement that is misleading, false or incorrect in a material particular AND knows, or is reckless as to whether, the statement is misleading, false or incorrect in a material particular. A person who commits the offence is liable on conviction to a fine at level 3 (i.e. HKD 10,000).
