

Trauma Cover

What is Trauma Cover?

Insurance that pays a lump sum if you or a key person gets a defined illness or condition for the first time.

Why do you need Trauma Cover?

Ongoing improvements and advancements in modern medicine mean you have a greater chance of surviving a serious illness or condition, but it can have a serious financial impact on your business. Having Trauma Cover in place can help minimise the financial impact.

Some examples of how this money can help are:

- › a cash injection to help your business continue operating
- › clearing business debt or loans
- › recruitment costs to find a replacement person
- › succession planning
- › executing a buy/sell agreement.

The sum insured for any other accelerated covers may also be reduced.

Alternatively, Trauma Cover can be 'standalone', which means that any Trauma Cover claim paid is independent of any Life Cover.
